EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE SPECIFICATION:

Page 1, in the title line, insert --POLYNUCLEOTIDES ENCODING --, before "MOLECULES ASSOCIATED WITH CELL PROLIFERATION".

Page 1, after the title line, insert the following paragraph:

--This application is a national stage filing of PCT/US99/16637, filed July 21, 1999, which claims the benefit of USSN 60/093,827, filed July 22, 1998.--

Examiner's Comment

2. The title was amended in order to more accurately reflect the claimed invention, drawn to polynucleotides. The specification was amended to include the required cross-referencing to related applications.

The PTO-892 attached to this Notice of Allowability cites the correct patent number for the Gorman et al. reference, US Patent 6,111,090. The Gorman et al. patent was cited by Examiner Li in the lack of unity (election/restriction requirement) of June 15, 2004, and in the

PTO-892 attached to that action. The PTO-892 of June 15, 2004 incorrectly cites the Gorman et al. patent. The newly attached PTO-892 corrects this inconsistency.

Conclusion

3. Claims 3, 5-7 and 9-11 are allowable.
